THE BURR FOLDING BED

Is not only the most comfortable, but has many advantages found in no other bed in existence.

This bed is the result of *ten years* of practical experience in making Parlor Bedsteads. It possesses merits that no other bed has, or can have, a few of which we will mention for the benefit of those who have never seen the bed.

1. All our regular styles are made of the best quality of well seasoned black walnut lumber.

2. Every design, whether plain or elaborate, has the same fine finish, substantial work and durability.

3. The illustrations show the appearance of the different patterns, representing, when closed, well finished Desks, Book Cases, Sideboards Parlor Cabinets, Wardrobes, etc. In these are drawers, shelves for ornaments, mirrors, writing desks, and with actual Book Cases.

4. They occupy less space than any folding bed, being in depth only 22 inches, and yet holding an ordinary mattress with pillows and bedding.

5. The bed is not disarranged in folding, after being made up, nor is the mattress divided into sections, since the wire spring bed when folded is *off tension*, taking no more room than the thickness of the wire, viz., *one-half inch!*

6. These beds are better adapted to hotel use than any other made, being light, portable, no iron weights, and giving as luxurient a Bed as it is possible to get in a stationary Bedstead.

7. These beds have the best wire bed bottom, with clock tempered steel springs at the ends, insuring solid comfort for all.

8. This bed is unfolded and made ready for use in a moment.

9. The *ventilation*, even when closed, is perfect.

10. No other folding bed can compare with the Burr Patent for elegance in appearance when closed.

11. The Burr Bed is the *only Cabinet Bed* that has a case on castors, and the *only* one that you do not have to *pull out* from the wall to open, causing great damage to carpets, etc.

In our brief description it has been shown that utility, ornament and economy of space, are closely combined in this invention.

Notice that by the use of this bed much additional bed room is secured, and that contracted bed-rooms are really enlarged!

HOTELS, BOARDING HOUSES, COLLEGES, DORMITORIES,

And every other Public or Private House can use them with Comfort and Profit.

Thousands of these Beds, in 30 styles, are now in use, and we can safely say that they give Universal Satisfaction.
